

Great White North Goldens
Health Guarantee

Vet Visit

Prior to going home with you, your puppy will make a trip to our veterinarian. This vet visit includes the exam, first vaccinations, microchipping, and a dewormer. We will send your puppy's health record and microchip info home with you in your puppy packet. We strongly urge you to contact your veterinarian immediately to set up a vaccination schedule for your puppy to avoid deadly diseases and debilitating illnesses.

Genetic Health Guarantee

The puppy you purchase from us is guaranteed from birth to one year of age against any hereditary defect that develops to the extent it renders the dog unsuitable as a pet. If a defect is found, you must provide a licensed veterinarian's certificate stating the defect. We then reserve the right to have our veterinarian confirm the defect. If the defect is proven true, we will refund your original purchase price.

OUR GUARANTEE IS FOR HEREDITARY DEFECTS.
WE DO NOT GUARANTEE AGAINST COMMUNICABLE DISEASES SUCH AS PARVO,
COCCIDIA, GIARDIA, DISTEMPER, RABIES, ETC.

We take every precaution to prevent these illnesses, but a puppy's immune system is immature at the time we release them to their new owners. Stress can contribute to a Coccidia or Giardia outbreak. Be very careful where you take your puppy until fully immunized against these types of diseases.

Should your selected puppy become ill before you take possession, we maintain authority to decide what medical treatment will be administered at our expense. You may either opt out of this contract receiving a full refund of your deposit, or you may wait and take possession of your puppy once it receives a clean bill of health. We are not responsible for any veterinarian or medical care needed or administered to your puppy once you have taken possession. In the unfortunate event your selected puppy expires prior to your possession, your deposit and any additional payments received will be refunded in full.
